

Project Puffin
SEABIRD RESTORATION PROGRAM

Project Puffin • 159 Sapsucker Woods Road • Ithaca, NY 14850 USA

Project Puffin was established to reintroduce Atlantic Puffins to their former Maine nesting islands. You can help support Project Puffin by adopting your own puffin! For each \$100 gift, we will enroll you in our Adopt-A-Puffin program and assign one Atlantic Puffin to you. Your puffin has had a remarkable history from the day he or she hatched to the present, which is described in your puffin's biography included in your adoption package. You'll find out about your puffin's choice of mate and nest, its nesting success, and new information gathered by our scientists this season. Adopt-A-Puffin lets you learn about these endearing seabirds while supporting our efforts to develop restoration techniques that can be used to help seabirds in peril worldwide. In addition to your puffin's biography, you'll also receive a certificate of adoption and a full-color photo of your puffin.
